WHAT IS TRIO?

UNIVERSITY OF CENTRAL MISSOURI TRIO PROGRAMS

TRIO is a set of federally-funded college opportunity programs that motivate and support students from disadvantaged backgrounds in their pursuit of a college degree.

882,201 low-income, first-generation students and students with disabilities - from 6th grade through college graduation - are served by over 3,400 programs nationally. TRIO programs provide academic tutoring, personal counseling, mentoring, financial guidance, and other support necessary for educational access and retention. TRIO programs provide direct support services for students and relevant training for directors and staff.

TRIO PROGRAMS

Upward Bound

Upward Bound (UB) is an intensive intervention program that prepares students for higher education through various enrichment courses. These campus-based programs provide students with instruction in literature, composition, mathematics, science, and foreign language during the school year and summer. UB also provides intensive mentoring and support for students as they prepare for college entrance exams and tackle admission applications, financial aid, and scholarship forms.

Educational Opportunity Centers (EOCs)

Educational Opportunity Centers target displaced or underemployed workers from low-income families. These centers help students achieve their high school equivalency and/or pursue postsecondary education options, guiding them through the often confusing admissions and financial aid process.

Student Support Services

Student Support Services programs help low-income and first-generation students, as well as students with disabilities, to successfully begin and stay in college. Participants receive tutoring, counseling, and remedial instruction in order to achieve their goals of college completion.

Talent Search

Talent Search (TS) identifies disadvantaged young people in grades 6 - 12 who have the desire and potential for success in postsecondary education. Students receive information about college admissions, scholarships, and various student financial programs.

TRIO PROGRAMS

Veterans Upward Bound

Veterans UB provides a unique service to veterans returning to college, aiding them in the transition process through intensive basic skills development and short-term remedial courses. Additionally, participants receive assistance in navigating the services offered by the Department of Veterans Affairs, veterans associations, and other organizations that aid veterans.

Upward Bound Math/Science

Using a model similar to the classic UB program, UB Math/Science aims to strengthen academic preparedness in math, science, and technology. The program assists students with rigorous math and science curriculum in high school to encourage and enable them to major in science, technology, engineering, and math (STEM) disciplines in college.

Ronald E. McNair Postbaccalaureate Achievement

The Ronald E. McNair Postbaccalaureate Achieve Program provides opportunities at the undergraduate and graduate levels for research or other scholarly activities at the institution or at graduate centers designed to provide students with effective preparation for doctoral study.

"HOPES AND DREAMS "

Missouri State University Upward Bound

During the summer of 2022, Upward Bound participants from Missouri State University were able to participate in a "Say it with Music" STEAM / STEM music production and songwriting workshop. Participants learn the behind-the-scenes process of writing and recording a song and film a music video and engaged in music STEM activities.
